

# SAFETY DATA SHEET

Issue Date 2015-06-04

Revision Date 2023-09-27

Version 1

## 1. PRODUCT AND COMPANY IDENTIFICATION

### Product Identifiers

Product Name: Facsimile Liquid  
Product Code: P-902-0000

### Recommended Use of the substance or mixture and Restrictions on Use

Industrial Use Only

### Details of the Supplier of the Safety Data Sheet

#### Supplier Address

Flexbar Machine Corporation  
250 Gibbs Road  
Islandia, NY 11749  
Website: www.flexbar.com  
E-mail: sales@flexbar.com

### Emergency Telephone Numbers

Company Phone Number: (610)-497-9000 (During Business Hours, 8:00am - 4:00pm EST)  
Emergency Telephone: CHEMTREC: 1-800-424-9300 (Outside U.S. 1-703-527-3887)

## 2. HAZARDS IDENTIFICATION

### Classification of the substance or mixture

#### Hazard Class - *Physical, Health, Environmental*

	Category
Flammable Liquid	2
Skin Corrosion/Irritation	2
Skin Sensitizer	1
<b>OSHA Defined Hazards</b>	<b>3</b>

Combustible dust, may form combustible dust concentrations in air, explosion hazard

Specific Target Organ Toxicity - Single Exposure

### Label Elements - *Pictograms, Signal Word, Hazard Statements, Precautionary Statements, & Supplemental Information*

### Signal Word

Danger

### Hazards Statements

H225 Highly flammable liquid and vapour  
H315 Causes skin irritation  
H317 May cause an allergic skin reaction

### Precautionary Statements - *Prevention, Response, & Disposal*

P210 Keep away from heat/sparks/open flames/hot surfaces – No smoking  
P233 Keep container tightly closed  
P240 Ground/bond container and receiving equipment  
P241 Use explosion-proof electrical/ventilating/light/.../equipment  
P242 Use only non-sparking tools  
P243 Take precautionary measures against static discharge  
P261 Avoid breathing dust/fume/gas/mist/vapors/spray

P264	Wash hands and exposed skin thoroughly after handling
P272	Contaminated work clothing should not be allowed out of the workplace
P280	Wear protective gloves/protective clothing/eye protection/face protection
P321	Specific treatment (see ... on this label)
P362	Take off contaminated clothing and wash before reuse
P363	Wash contaminated clothing before reuse
P302+P352	IF ON SKIN: Wash with soap and water
P303+P361+P353	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P332+P313	If skin irritation occurs: Get medical advice/attention
P333+P313	If skin irritation or a rash occurs: Get medical advice/attention
P370+P378	In case of fire: Use CO2 for extinction
P403+P235	Store in a well ventilated place. Keep cool
P501	Dispose of contents/container to an authorized disposal facility

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	Cas No.	Weight-%	GHS Ratings
Methyl Methacrylate	80-62-6	90 — 100	Skin Corrosion/Irritation 2 (H315) Skin Sensitizer 1 (H317) Specific Target Organ Toxicity - Single Exposure 3 (H336)
Dimethyltolylamine	99-97-8	0 — 1	Oral Toxicity Acute Tox. 3 (H301) Dermal Toxicity Acute Tox. 3 (H311) Inhalation Toxicity Acute Tox. 3 (H331) Specific Target Organ Toxicity - Repeated Exposure 2 (H373) Aquatic Toxicity C3 (H412)

### 4. FIRST AID MEASURES

#### **General Advice**

Provide the SDS to medical personnel for treatment.

#### **Inhalation:**

Remove victim to fresh air. Seek immediate medical attention.

#### **Eye Contact:**

If product gets in the eyes, flush with lukewarm water for at least 15 minutes. If irritation occurs, contact a physician.

#### **Skin Contact:**

Rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.

**Clothing:**

Remove contaminated clothing, wash thoroughly before reuse.

**Ingestion:**

If ingested, do not induce vomiting. If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give anything by mouth to an unconscious person. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. Get medical attention immediately.

**Notes to Physician:**

This product contains N,N-Dimethyl-p-Toluidine at a low concentration (does not meet criteria for reporting in section 3). While complications from this component are not expected, the presence of this material in the body leads to formation of methemoglobin, which in sufficient concentration causes cyanosis. This is reversed spontaneously after termination of exposure. Treat cyanosis with supportive measures such as bed rest and oxygen inhalation. Thoroughly cleanse the entire contaminated area of the body. If extensive cyanosis is present, treat with methylene blue and vitamin B12.

**5. FIRE-FIGHTING MEASURES****Suitable Extinguishing Media**

Chemical (alcohol-resistant) foam, dry chemical or carbon dioxide.

**Unsuitable Extinguishing Media**

Water spray or water stream may not be effective.

**Specific Hazards Arising from the Chemical**

High temperatures, inhibitor depletion, accidental impurities, or exposure to radiation or oxidizers may cause spontaneous polymerizing reaction generating heat/pressure. Closed containers may rupture or explode during a runaway polymerization. This product is a flammable liquid. Vapors of this product are heavier than air and may travel to a source of ignition and flash back to a leaking or open container. Vapor forms an explosive mixture with air.

**Hazardous Combustion Products**

Acrid smoke-fumes/carbon monoxide/carbon dioxide and perhaps other toxic vapors may be released during a fire involving this product.

**Special Fire Fighting Procedures:**

Use a water spray or fog to reduce or direct vapors, and keep containers cool. Water may not be effective in actually extinguishing a fire involving this product. Do not enter fire area without proper protection. Fight fire from a safe location. Structural firefighters must wear SCBAs and full protective equipment. Heat/impurities may cause pressure to build and/or rupture closed containers, spreading fire, increasing risk of burns/injuries.

**Protective Equipment and Precautions for Firefighters**

Wear self-contained breathing apparatus for firefighting if necessary. Do not enter fire area without proper protection. Fight fire from safe distance/protected location. Heat/impurities may increase temperature/build pressure/rupture closed containers, spreading fire, increasing risk of burns/injuries. Use water spray to cool unopened containers. Pressure relief system may plug with solids creating risk of overpressure.

**6. ACCIDENTAL RELEASE MEASURES****Personal Precautions, Protective Equipment and Emergency Procedures****Personal Precautions**

Before cleaning any spill or leak, individuals must wear appropriate Personal Protective Equipment that is specified in section 8. Deny entry to all unprotected individuals. Remove any contaminated clothing and wash thoroughly before reuse.

**Environmental Precautions**

Extinguish all ignition sources. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. May contaminate water supplies/be harmful to aquatic organisms. May cause long-term adverse effects in the aquatic environment. US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802.

**Methods and Material for Containment and Cleaning Up****Methods for Containment**

Prevent further leakage or spillage if safe to do so. Dike and contain spill with inert material (e.g. sand or earth). May contaminate water supply.

**Methods for Cleaning Up**

Maximize ventilation (open doors and windows) and secure all sources of ignition. Use good, local ventilation with a minimum capture velocity of 100 ft/min (30 m/min) at point of product release. Place into appropriate closed container(s) for disposal in accordance with local, state and federal regulations. Wash all affected areas with plenty of warm water and soap.

**7. HANDLING AND STORAGE****Precautions for Safe Handling****Advice on Safe Handling**

Keep away from heat, sparks, and flame. Keep container closed after each use. Do NOT use localized heat source such as band heaters to heat/melt product. Do NOT use steam. Hot boxes or hot rooms are recommended for heating the product, which can be set at a maximum temperature of 60°C/140°F. Avoid contact with skin, eyes and clothing. Use good personal hygiene and housekeeping. After use, wash hands and exposed skin with soap and water. Do not eat, drink, or smoke while handling product. Observe precautions found on label. Keep away from heat, sparks, and flame. Keep container closed after each use. Ground and bond all containers when transferring. Refer to Section 8 for suggested exposure controls and personal protection. Observe precautions found on label

**Conditions for Safe Storage, Including any Incompatibilities****Storage Conditions**

Store containers in a cool, dry location, away from direct sunlight, heat, sparks, flame, other light sources, or sources of intense heat. Store in accordance with National Fire Protection Association recommendations. Check inhibitor levels periodically, adding to the bulk material if needed. Maintain at a minimum, the original 2-inch headspace in the product container and do not blanket or mix with oxygen-free gas as it renders the inhibitor ineffective. Vapors are uninhibited and may form polymers in vents or flame arresters, resulting in blockage of vents. Product residue may remain in empty containers. Observe all label precautions until the container is cleaned, reconditioned, or destroyed.

**Incompatible Materials**

Strong oxidizers, strong reducers, free radical initiators, inert gases, oxygen scavengers.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Methyl Methacrylate 80-62-6	100 ppm TWA; 410 mg/m <sup>3</sup> TWA	100 ppm STEL 50 ppm TWA	NIOSH: 100 ppm TWA; 410 mg/m <sup>3</sup> TWA
Dimethyltolylamine 99-97-8			

**Engineering Controls**

Use local explosion-proof ventilation that is adequate to keep employee exposure to airborne concentrations below exposure limits. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

**Personnel Protective Equipment (PPE)****Respiratory Protection**

A respirator should be worn whenever workplace conditions warrant a respirators use. None required if airborne concentrations are maintained below the exposure limit listed above. If necessary, use only respiratory protection authorized

per U.S. OSHA's requirement in 29 CFR §1910.134 or other appropriate governing standard.

#### Eye/Face Protection

Wear safety glasses, chemical goggles when splashing is possible, when dealing with this material. If necessary, refer to U.S. OSHA 29 CFR §1910.133, or other appropriate governing standard. Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes.

#### Skin and Body Protection

Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Full contact:

Material: Nitrile rubber

Minimum layer thickness: 0.4 mm

Break through time: 480 min

Splash contact:

Material: Nitrile rubber

Minimum layer thickness: 0.11 mm

Break through time: 120 min

#### General Hygiene Considerations

Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling. An eyewash station and a safety shower are recommended. Food, beverages, and tobacco products should not be carried, stored, or consumed where this material is in use. Wash hands thoroughly before eating, drinking, or smoking.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Flammable Limit (Air Volume %, 0% Lower / Upper)</b>  <b>Physical State:</b> Liquid  <b>Flash Point:</b> 54 F, 12 C  <b>Evaporation Rate</b>  <b>Specific Gravity:</b> 0	<b>Appearance:</b> Clear  <b>Odor:</b> Characteristic  <b>Autoignition Temperature:</b> 421°C  <b>Fragrance VOC:</b> 99.09  <b>Boiling Range (low - high):</b> 101°C
---	--

## 10. STABILITY AND REACTIVITY

Note: Materials listed as stable may become unstable up depletion of inhibitors (such as mequinol or hydroquinone), contact the manufacturer for exact levels and instructions on inhibitor maintenance.

#### Material stability

Stable

#### Incompatible materials

Strong oxidizers, strong reducers, free radical initiators, inert gases, oxygen scavengers. Material has strong solvent properties and can soften paint and rubber.

#### Hazardous decomposition products

Oxides of Carbon

#### Possibility of hazardous reactions

Hazardous polymerization may occur.

## 11. TOXICOLOGICAL INFORMATION

#### Mixture Toxicity

Inhalation Toxicity: 4,674mg/L

**Component Toxicity**

99-97-8 Dimethyltolylamine  
 Oral: 1,650 mg/kg (Rat) Dermal: 500 mg/kg (Rat) Inhalation: 1,400 mg/m3 (Rat)

**Routes of Exposure**

No data available

**Target Organs**

Eyes Skin Respiratory System

**Effects of Overexposure****Product Components Listed as Carcinogenic**

<u>CAS Number</u>	<u>Description</u>	<u>% Weight</u>	<u>Carcinogen Rating</u>
99-97-8	Dimethyltolylamine	0.1 to 1.0%	<u>Dimethyltolylamine: DMPT is known to the State of California to be a carcinogen, and is a Prop. 65 listed chemical.</u> <u>DMPT is a listed carcinogen by NTP</u> <u>DMPT is not listed as a carcinogen by IARC, and ACGIH</u>

**12. ECOLOGICAL INFORMATION****Component Ecotoxicity**

Methyl Methacrylate

96 Hr LC50 Pimephales promelas: 243 - 275 mg/L [flow-through]; 96 Hr LC50 Pimephales promelas: 125.5 - 190.7 mg/L [static]; 96 Hr LC50 Lepomis macrochirus: 170 - 206 mg/L [flow-through]; 96 Hr LC50 Lepomis macrochirus: 153.9 - 341.8 mg/L [static]; 96 Hr LC50 Oncorhynchus mykiss: >79 mg/L [flow-through]; 96 Hr LC50 Oncorhynchus mykiss: >79 mg/L [static]; 96 Hr LC50 Poecilia reticulata: 326.4 - 426.9 mg/L [static]  
 48 Hr EC50 Daphnia magna: 69 mg/L  
 96 Hr EC50 Pseudokirchneriella subcapitata: 170 mg/L

Dimethyltolylamine

96 Hr LC50 Pimephales promelas: 42 - 50.5 mg/L [flow-through]

**13. DISPOSAL CONSIDERATIONS****Waste Treatment Methods****Disposal of Wastes**

It is the responsibility of the generator to determine at the time of disposal whether the product meets the criteria of a hazardous waste. When discarded as shipped it is a hazardous waste by the EPA under RCRA. After addition of excess inhibitor, dispose waste material in accordance with Federal, State, and Local regulations. Comply with all applicable federal, state and local regulations. Waste disposal options include landfilling solids at permitted sites. Incinerate in a chemical incinerator equipped with an afterburner and scrubber. Use registered transporters.

**Contaminated Packaging**

Reuse of empty drums or containers is not recommended. Employees should be advised of the potential hazards, due to residual flammable material, associated with empty containers. Dispose of all empty containers properly, in accordance with Federal, State and Local regulations

**14. TRANSPORT INFORMATION**

<u>Agency</u>	<u>Proper Shipping Name</u>	<u>UN Number</u>	<u>Packing Group</u>	<u>Hazard Class</u>
DOT	METHYL METHACRYLATE, STABILIZED DOT RQ: 1000lbs	UN1247	II	3
IATA	METHYL METHACRYLATE, STABILIZED	UN1247	II	3
IMDG	METHYL METHACRYLATE, STABILIZED EmS F-E, S-D	UN1247	II	3

**15. REGULATORY INFORMATION**

**State of California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65):**  
 WARNING! This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin:

99-97-8 Dimethyltolylamine 0.1 to 1.0 % Carcinogen

**SARA 313**

Methyl Methacrylate 80-62-6

**US State Right-to-Know Regulations**

- None

<u>Country</u>	<u>Regulation</u>	<u>All Components Listed</u>
	EINECS	Yes
	SARA Hazard categories	No
	TSCA Inventory	Yes

**16. OTHER INFORMATION**
