

## MATERIAL SAFETY DATA SHEET

IDENTITY: LOW CARBON STEEL PRODUCTS - ALL GRADES

SECTION I

Manufacturer's Name: Emergency Telephone No:

KEYSTONE STEEL & WIRE CO. 309-697-7020

Address: Telephone No. for Information

7000 SW ADAMS ST. 309-697-7020

PEORIA, IL 61641

Date Prepared: May 13, 1999 Date Revised: February 26, 2004

## SECTION II - HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

Hazardous Components:	C.A.S. Number	<u>%</u>
Iron	7439-89-6	>99
Manganese	7439-96-5	<1
Zinc	7440-66-6	*
Lime		*

Percentages are representative of product and may vary depending on batch composition. Due to the variance in batch composition, trace quantities of antimony, arsenic, barium, beryillium, cadmium, chromium, copper, lead, mercury, nickel, selenium, silver, and thallium may be present in amounts <1%.

\*A thin coating of oil, lime (<0.5% of total weight of product), or zinc (<2.4 % total weight of product) may be added to the surface as a corrosion inhibitor or preventative.

SECTION III - PHYSICAL/CHEMICAL CHARACTERISTICS

Boiling Point: N/A Specific Gravity: Approx. 8

Vapor Pressure (mm Hg): N/A Melting Point:  $2800^{\circ}F$ Vapor Density (Air = 1): N/A Evap.Rate (Butyl Acetate = 1): N/A

Solubility in Water: Negligible

Appearance and Odor: odorless solid with metallic lustre

\_\_\_\_\_

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point (Method N/A Flammable Limits: N/A

Used):

Extinguishing Media Dry Compound or Dry Powder

Special Fire Fighting NIOSH approved positive pressure, self contained breathing apparatus.

Procedures:

Unusual Fire and Spraying water on molten metal may cause an explosion. Use a dry type extinguisher.

Explosion Hazards: Product is non-combustible.

SECTION V - REACTIVITY DATA Stability: Unstable Conditions to Avoid: N/A Stable XX Incompatibility (Materials Strong acids or bases to Avoid): Hazardous Decomposition Metal fumes and certain noxious gases such as CO may be produced or By-Products: during welding or burning operations. SECTION VI - HEALTH HAZARD DATA ROUTE(S) OF ENTRY: Inhalation? Skin? Ingestion? XX XX Health Hazards: No toxic effects are expected from its inert form. Prolonged, repeated exposure to (Acute and Chronic): fumes or dusts generated during heating, cutting, welding, or brazing may cause the following health effects: Inhalation: Iron (Fe): Siderosis, no fibrosis Manganese Pneumonitis. CNS involvement, including irritability, difficulty in walking, speech (Mn): disorders, compulsive behavior, masklike face, and Parkinson like syndrome. Zinc (Zn): Zinc oxide fumes can cause metal fume fever with symptoms similar to flu: chills, fever, headache, cough, nausea, diarrhea, vomiting, etc. Soluble Oil: Pulmonary effects May cause irritation. Lime (CaO): Skin Contact: May cause irritation. Soluble oil may cause dermatitis. Eye Contact: May cause irritation. Ingestion: May cause irritation to mouth and throat. CARCINOGENICITY: NTP? IARC Monographs? OSHA Regulated? NO NO NO Sign and Symptoms of Exposure: Zinc (Zn): Metal Fume Fever Manganese (Mn): irritability, difficulty in walking, speech disorders, compulsive behavior, masklike face, and Parkinson like syndrome. Medical Conditions Generally None found Aggravated by Exposure: Emergency First Aid Procedures: Inhalation -If inhaled in large amounts, remove exposed person to fresh air. Get medical attention. Ingestion -Call a physician. If swallowed, if conscious, induce vomiting immediately. **Exposure Limits:** ACGIHTLV (mg/M3) Ingredient: OSHA PEL (mg/M3) Iron (Fe) 10 (as Fe<sub>2</sub>O<sub>3</sub> fume) 5 (as Fe<sub>2</sub>O<sub>3</sub> fume) 5 Manganese (Mn) 1.0 (as fume) 5-Fume 10-Dust Zinc (Zn) 5-Fume or Respirable dust

10-Total dust

5

5

Lime (CaO)

SECTION VII - PRECAUTIONS FOR SAFE HANDLING USE

Steps To Be Taken in Case Material Is Released or

Spilled:

Waste Disposal Method:

Sweep up spill and place in a container.

Dispose in accordance with all applicable federal, state, and

local environmental regulations. Can often be sold for scrap

metal.

Precautions To Be Taken In Handling and Storage: No.

Other Precautions: Avoid breathing fume or dust. Store away from strong acids

and bases.

\_\_\_\_\_\_

SECTION VIII - CONTROL MEASURES

Respiratory Protection (Specific Type): NIOSH approved dust and fume cartridge respirator or supplied air if

airborne dust or fume levels are or may be above the PEL. Consult respirator manufacturer for assistance in choosing

appropriate respirator. If respirators are used, employees must have a

respirator program which complies with OSHA 1910.134

Ventilation: Local Exhaust - Use to maintain airborne levels below PEL.

Protective Gloves: Standard

Eye Protection: As necessary to protect against particles or radiation from welding

type operations.

Other Protective Clothing or Equipment: As needed to protect against heat.

Work/Hygienic Practices: Use good personal hygiene to avoid ingestion or inhalation through

food or smoking.

## SARA 313 INFORMATION:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

CHEMICAL NAME

CONCENTRATION

Combination of Zinc (CAS No. 7440-66-6)

and Zinc Oxide (CAS No. 1314-13-2)

<2.4%

Manganese (CAS No. 7439-96-5)

<1%

Percentages are representative of product and may vary depending on batch composition.
