

Supplied Air Respirators & Accessories

The 3M™ L-Series Positive Pressure Systems have you covered for just about any job. With several options for headgear, facemasks and other accessories, you can build a complete supplied-air system designed specifically for your needs. These lightweight, well-balanced and versatile headgear are fully adjustable and can be used with the 3M™ Belt-Mounted Powered Air Purifying or 3M™ Supplied Air Systems. Both systems deliver clean, cool air from the back of the headgear over the head into the breathing zone. Allows workers to wear prescription glasses, promoting greater comfort and worker acceptance. Applications include grinding, welding, smelting, spray painting, cutting, burning, chipping, sanding, woodworking and maintenance.

L-501 - 3M™ Loose-Fitting Facepiece &

L-503 - 3M™ Loose-Fitting Facepiece with Welding Shield

- Bumpcap provides respiratory protection up to 25 x PEL (Permissible Exposure Limit); Meets ANSI standard for secondary impact protection

L-703 - 3M™ Loose-Fitting Facepiece with Welding Shield (Hardhat) &

L-905 - 3M™ Loose-Fitting Facepiece with Welding Shield (Helmet)

- Provides respiratory protection up to 25 x PEL
- Meets ANSI standards for secondary impact protection and side impact requirements for industrial protective headgear

To Build a Supplied Air System:

1. Choose a 3M™ L-Series Headgear
2. Choose the 3M™ Breathing Tube L-122
3. Choose a 3M™ Air Control Device
 - W-9435 Straight (for high pressure)
 - W-2929 Coiled (for high pressure)
 - W-3020 Straight (for low pressure)
4. Choose a 3M™ Air Supply Hose (25, 50 or 100')
 - Vortex Cooling Assembly V-100 (high pressure)
 - Vortex Heating Assembly V-200 (high pressure)
 - Air Regulating Valve Assembly V-300 (high pressure)
 - Low Pressure Assembly

Portable Air Purification System 256-02-00 is a four-stage filter process that removes limited amounts of carbon monoxide and other contaminants without using large desiccant drying towers.

Filter and Regulator Panel W-2806 filters, dries and regulates normal plant air; helps to remove water, oil, particles, odors and vapors.
